SUMMARY

Aspiring Software Developer skilled in the MERN stack with a strong foundation in Generative AI, Python, and LangChain. Experienced in building full-stack web applications, REST APIs, and AI-powered solutions using LLMs, Retrieval-Augmented Generation (RAG), and vector databases. Passionate about building scalable software, solving real-world problems, and contributing to innovative engineering teams.

SKILLS

Programming Languages: Python, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Generative AI: LangChain, Groq API, Hugging Face, RAG, FAISS, Embeddings, AI Agents

Developer Tools: Git, GitHub, Postman, VS Code, Streamlit, npm

PROJECTS

AI Resume Analyzer | *React.js, Node.js, Express.js, MongoDB, Python, LangChain, Groq*

- Developed an AI-powered resume analysis platform using MERN, Python, LangChain, and Groq LLM.
- Implemented PDF parsing, job description matching, ATS scoring, and personalized improvement suggestions.
- Built REST APIs and integrated MongoDB to store analysis history and enable seamless frontend-backend communication.

AI Interview Assistant | *React.js, Node.js, Express.js, MongoDB, Python, LangChain, Groq*

- Built an AI interview preparation platform that generates personalized interview questions from resumes and job descriptions.
- Integrated LangChain and Groq LLM to evaluate answers, provide feedback, and adapt interview flow dynamically.
- Developed scalable MERN-based APIs for interview sessions, scoring, and performance tracking.

AI Knowledge Hub | *React.js, Node.js, Express.js, MongoDB, FastAPI, LangChain, FAISS, Groq*

- Built a full-stack AI-powered document assistant enabling users to securely upload PDF documents and chat with them using Retrieval-Augmented Generation (RAG).
- Developed a MERN backend with JWT authentication, document management, chat history, and integrated a FastAPI microservice for PDF processing and AI inference.
- Implemented semantic search using LangChain, Hugging Face embeddings, FAISS, and Groq LLM to generate context-aware responses from uploaded documents.

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Dr. Akhilesh Das Gupta Institute of Professional Studies (ADGIPS)

Expected 2027

CGPA: 8.1/10

CERTIFICATIONS

- AI Practitioner** — IBM SkillsBuild
- Foundations of Prompt Engineering** — Amazon Web Services (AWS)
